

NEWS LETTER

KARNATAKA VETERINARY, ANIMAL & FISHERIES SCIENCES UNIVERSITY NANDINAGAR, P.B. No. 6, BIDAR - 585 226

VOL - XVIII, ISSUE-II | JULY-DECEMBER, 2022

From Vice-Chancellor's Desk

At the outset, I am happy to note that the university has made progress in many collaborative outreach Programs during the period July-December, 2022. These include WOA Reference Laboratory, Veterinary College Bangalore with Karnataka Veterinary Council, Dept of AH and VS, FRIC Bhutnal with MANAGE Hyderabad, Veterinary College Bangalore with CPDO and TI, Hesaraghatta, KVK Mangalore with ISHA Foundation. Likewise many programmes have been also organized in various institutions of KVAFSU, Bidar.

Directorate of Extension, KVAFSU had organized state level workshop on “Bridging Research and Extension Gaps among multi stakeholders for sustainable Livestock development” in “Karnataka State” during 6th to 7th Dec. 2022. Twenty stakeholder organizations participated in the workshop. I hope the proceeding of the workshop would throw light on ways and means for fostering and nurturing collaboration among the stakeholders in Livestock sector in Karnataka.

Student community should also be judiciously involved in all the outreach programmes of the university. In such participation there is enormous scope for improving their professional skills as well as personality and communication skills. At this juncture, I sincerely call upon all the teachers to look for the possibilities of institutionalizing the student participation in various outreach programmes. Our University successfully organized one Intercollegiate Sports and Games Meet-2022.

I congratulate all the organizers and winners of the meet. KVAFSU is committed to provide best sports facility to the students. However, the student community should utilize these facilities effectively. They should keep themselves fit and focus on their academic achievements and this should be reflected in terms of good JRF and SRF ranks and fellowships. I request all the counselors of the students to regularly keep track of students and monitor their progress constantly.

Finally, I appreciate the efforts of the Director of Extension and Chief Editor for bringing out this edition of the news letter.

(K.C. Veeranna)
Vice-Chancellor

EDITORIAL

It is my pleasure and privilege to place before you the university news letter volume XVIII, Issue-2, for the period July to December, 2022. The delay in bringing out the news letter for the period July to December, 2022 was due to heavy workload coupled with shortage of staff at this Directorate. However, sincere efforts are being made to bring out the news letter covering all major events including achievements made by teachers and other staff members in the field of teaching, research and extension. Several national and international seminars, symposia, conference, workshops and training programmes etc., have been organized during the reporting period. To strengthen teaching, research and extension in veterinary, Animal Science, Dairy and Fisheries, the university has signed MoUs with many national organizations. Several of our teachers have made the university proud by bagging national award.
